## Job Vacancy: Exciting Opportunity for a Junior Software Engineer

Are you a creative problem-solver with a passion for software engineering and sustainable maritime solutions? Do you have skills in MATLAB, C++, PLCs, and embedded systems? If yes, Smart-Ship has the perfect opportunity for you!

Smart-Ship is proud to be a pioneer in developing force-feedback controls for the maritime sector. By harnessing the power of technology, we aim to drive the maritime sector towards a sustainable future. We're located inside the innovative YES!Delft startup incubator, a hub of creativity and tech advancement.

We're seeking an enthusiastic Junior Software Engineer to join our young and dynamic team. In our world, no two days are alike. One day, you could be debugging a challenging piece of code, and the next, you could be brainstorming design ideas for a new control feature. Here, adaptability and a thirst for continuous learning aren't just nice to have, they're necessary.

### About You:

- You have practical knowledge of MATLAB, C++, PLCs, and embedded systems.
- You're flexible and enjoy the dynamism of a fast-paced working environment.
- You're a team player, but you're also capable of working independently.
- You possess excellent problem-solving skills.
- You have a passion for sustainability and technology in general.

### What We Offer:

- A chance to contribute to a more sustainable maritime future.
- Opportunity to work within the vibrant YES!Delft startup incubator community.
- A stimulating and flexible work environment where you can grow your skills.
- A competitive salary with benefits.
- An enthusiastic team that values your input and ideas.

**Please apply with your CV and a cover letter, explaining why you're the perfect fit for our team.**

Smart-Ship is an equal opportunity employer. We encourage applicants from all backgrounds and experiences.

Join us as we navigate towards a sustainable future in the maritime industry!

For any further inquiries about the role, please feel free to reach out to us at [info@smart-ship.eu](mailto:info@smart-ship.eu).

If you're excited about the challenge of making waves in the maritime sector, we'd love to hear from you!
